

Managers' Meeting  
9/27/06

Minutes: Approved

Ed Olehy talked about the batting cages. Notre Dame is in the process of working on this. A batting cage costs \$3000-\$3500 each and that doesn't include the cost of the pitching machine. We would be an additional insured on their policy. It is up in the air right now, but we should know something in the next couple of weeks.

Extra fall tournament - There are a lot of teams that are not available on Sundays. Tom Kulavic from SASA and Lou Basso are talking about putting on something together like a college showcase. More updates to come.

ODP – Brenda Bonello is going to call ODP to see if they are coming this year. They are usually here in November.

Field maintenance - Tom Itschner will get a schedule out to the managers this week. Fields really need work done before winter gets here.

Financial Health of the Club - We are not losing money but we are struggling with the costs of the building. The board is working on ideas to get out from under the burden of the building. That is all that can be said at this time.

Brenda Bonello talked with Randy Weatherly from PSC and he told his coaches that there is a probable merger between the two clubs. PSC would like to see us get out from under the debt of the building. We need to work on this possible merger asap due to uniforms will need to be ordered etc since they are all outdated. Probably before tryouts.

PSC is trying to decide about indoor training this winter. Randy Weatherly is going to talk to his coaches. This would be a great idea so that the parents can mingle and get to know each other. It was suggested we open it up and have a club meeting and include everyone. Brenda will have Donna send out an email to everyone.

We will go through tournament numbers with Bryce Tiller when he returns.

We used a USSF grant for the mower deck last time we had work done to it. Can we go to them again? Can we reapply? According to Ed Olehy we need to get the mower deck fixed now. We won't make another mowing season the way it is now. We need to figure out a way to get a new mower deck or rebuild this one.
